SUMMARY

As a student of life and engineering, I am looking for a job at a company with a professional and welcoming environment that will give me opportunities to contribute to their work. I am interested in software development, game development, web development, quality assurance, and programming in general. I graduated from Baruch with a degree in Finance, maintained a 3.5 GPA, and managed to grab some scholarships and also made the Dean's List! My skills include both front-end and back-end, industry standard C# and python, but I am willing to constantly develop and sharpen my skills as I continue to work in this particular industry.

SKILLS

Front-End: Javascript, React, Redux, jQuery, HTML5, CSS3, Vue

Back-End: Nodejs, REST APIs 3, C#, Python, PostgreSQL

PROJECTS

Final Fantasy XIV Data | *GitHub*: Description of the project.

- Mined Data from FFXIV live server to dynamically show character's profile
- **Tech:** HTML5, CSS3, jQuery

Quiz App | <https://github.com/iqsymphic/Quiz-App>

- Starting project demonstration mastery over front-end
- **Tech:** HTML5, CSS3, Javascript

Portfolio | <https://github.com/iqsymphic/portfolio>

- Portfolio lining up all the projects to demonstrate to potential hiring manager
- **Tech:** HTML5, CSS3, Javascript, jQuery

EXPERIENCE

HS Company | New York, New York

IT Help Desk

December 2018 – Present

- Aided in diagnosing software/hardware issue
- Helped establish IT department

LIMSA | Queens, New York

SAT Instructor

May 2018 – July 2018

- Oversaw increase in student's score in both math and english
- Unorthodox approach to fix into student's unique study habits

EDUCATION

THINKFUL

2020

Evening Engineering and Weekends

- Learned the foundation of being a fullstack developer to help gain confidence in continuing this career path
- Not only worked on program material, but also extra languages on the side in preparation for the industry

CUNY Baruch University

Bachelors, Finance

2010

- Maintained a 3.5 GPA
- Dean's List 2007
- Dean's List 2009
